Bird Photography

Digital Photography Workshops

In an endeavor to spread the awareness about Earnest photography, Sheil's Photography started with the basic level module - Er-Photo workshops in the month of July 2009.

Having conducted a series of the basic level modules, Sheil's Photography is launching it's next level workshop. This workshop is intended for photographers with special interest in birds.

Bird photography is perhaps one of the trickiest types of photography. Understanding birds behavior patterns and habits forms an integral part of bird photography. Bird photography also requires great patience and persistence.

Sheil's photography is conducting a workshop on bird photography that covers many of these angles and propels you to a next level in this area.

Special guidance from expert bird photographer
Bird tracking methods, bird observation and techniques to catch great bird photographs.

Transport provided by workshop organizers.
Lunch - Group cooking, ingredients **provided** by organizers.

Fees Rs.3000/- per participant inclusive of lab session, transportation and lunch.
